

A. System Usability Scale (SUS) Questionnaire

SUS helps evaluate how usable and user-friendly a system feels to its users.

(1= Strongly Disagree, 2 = Disagree, 3 = Neutral, 4 = Agree, 5 = Strongly Agree)

1. I think I would like to use this NFT-based login system frequently in other metaverse platforms.
2. I found the NFT login system unnecessarily complex.
3. I thought the NFT authentication process was easy to complete.
4. I think I would need technical support to use this NFT-based login system.
5. I found the login process (with MetaMask and blockchain) well integrated with the game environment.
6. I noticed a lot of inconsistency or confusion in how the NFT login worked.
7. I believe most people would learn to use this NFT login system very quickly.
8. I found the switching between VR headset and PC monitor to complete the login very inconvenient.
9. I felt confident while using the NFT authentication process.
10. I think I would need to learn a lot before I could use this NFT login system successfully.
